CHINESE TALENT QUEST PROGRAM

2024

CATCH UP DIGITAL TRANSFORMATION

**Digital Transformation
Beyond Technology,
Talent is the Key!**

PROGRAM OVERVIEW

In today's rapidly evolving digital landscape, successful digital transformation requires more than just cutting-edge technology and infrastructure. The true driving force behind any meaningful transformation is the talent that powers it.

HireLala is proud to introduce the Chinese Talent Quest Program, a strategic initiative designed to connect Middle Eastern companies, organizations, and governments with top-tier Chinese professionals who possess the skills and experience to drive digital innovation and transformation.

China's Best: Driving Global Digital Excellence

China has achieved unparalleled success in digital transformation, becoming a global leader in this domain. The country is home to a vast pool of highly educated, experienced, and cost-effective professionals. These talents have been at the forefront of China's digital revolution, contributing to the development of world-class technologies and innovative solutions.

Proven Success Globally

The United States, through its H1B visa program, has successfully attracted a significant number of Chinese talents, which has been a cornerstone of its technical dominance. Leading tech companies like OpenAI have numerous Chinese experts contributing to their cutting-edge advancements.

WHY CHOOSE CHINESE TALENT

Program Highlights

Elite Talent for Elite Digital Solutions

- **Top 100 Candidates**

The Chinese Talent Quest Program will provide 100 high-quality candidates for each of 10 targeted vertical categories, ensuring a perfect match for various digital transformation needs.

- **Targeted Verticals**

We have identified the top 10 crucial categories of talent essential for digital transformation:

Artificial Intelligence

Software Engineering

Data Engineering

Information Technology (IT)

Computing Resource Management

Cybersecurity

Cloud Computing

Digital Marketing

E-commerce Development

Internet of Things (IoT)

- **Expertise Across Industries**

Our candidates are selected based on their expertise and proven track record in various industries, ensuring they bring valuable insights and skills to your organization.
